We Deliver All-Inclusive Care.

A personal PACE plan to help you remain independent.

With a disability or health problem, it can be hard to live on your own. But PACE of the Triad can help. We surround you with the caring support you need to live independently in your home and in the community you know and love. From medical services that help you avoid health problems to transportation and homemaker services, we tailor a program that precisely meets your needs.

A day health center and in-home support.

We offer flexible options that can make all the difference in your ability to live independently— including a unique day health center open five days a week, 8 a.m. to 5 p.m. It’s a fun and friendly place where you will find medical services, rehab services, support services and plenty of activities. You can have meals with new friends, enjoy social activities and get the support you need to make life easier. We also deliver a variety of services directly in your home— from vital home health care to help with homemaker services.

Cost:
PACE of the Triad is funded by Medicare, Medicaid and by private payment to deliver necessary care. If you are eligible for Medicaid and depending on your income, PACE services may be offered free of charge. If your income is over the threshold determined by Medicaid, you may still be eligible to participate by paying a premium or a Patient Monthly Liability. If you only qualify for Medicare, there is a set monthly fee you will be asked to pay.

With the exception of emergency services, all services we deliver must be approved in advance by PACE of the Triad. You may be charged for the full cost of services from an out-of-network provider or for services you receive that are not approved by PACE in advance. Once enrolled in PACE, there are no deductibles, co-pays or co-insurance.

To enroll or to find out more:
